

Trainee Swiss Cycling

For students of exercise and sports science

Internship Swiss Cycling from 1st of May (3 or 6 months) or 1st of August (3 months)

Swiss Cycling has been one of the most successful Swiss sports federations for years. It is home to 8 different disciplines with a wide range of requirements. Swiss Cycling not only invests in elite sports, but is also strongly committed to young talent, education, popular sports and sports science.

Short description of the internship

- Assistance in the implementation and evaluation of sports science projects such as material tests or performance monitoring
- Assistance with various measures to promote young talent, such as 3T (Talentreff Tenero) or PISTE (Prognostic Integrative Systematic Trainer Assessment)
- Assistance and support in the training of Youth + Sport, trainers and commissaires
- Insights into other areas of Swiss Cycling such as popular sports, communication or marketing

General learning objective

- Deeper practical insight into the multifaceted work of the federation
- Independent implementation of sub-projects in the departments of science, youth development, education and high-performance sports
- Establishment of an own professional network, through contact with the various stakeholders in Swiss sport

Administration

- Start of internship
 - From May: 3 months or 6 months
 - From August: 3 months
- Compensation: CHF 1000/month (gross)
- Head: Lucas Schmid
